

# The Science Month of The Year!

This September, be prepared for amazing discoveries and tremendous fun as you take part in the many exciting activities at the annual science festival, science.03. This event is jointly organised by the Agency for Science, Technology and Research (A\*STAR) and Singapore Science Centre.

Take time to indulge yourself in the marvels of Science, Technology and Biomedicine once again. Check out the more than 100 zany activities available during the month of September. With great fun and discoveries to be made, you will be truly inspired!

Come down to X-periment! an event that will kick off science 03. Head down

to the Suntec City Entertainment Centre between 5 - 7 September and check out the latest developments and research works of local researchers. Visitors will be greeted with "sci-sational" hands-on experiments, quizzes and games. Be entertained by the "Cool Science!" shows and discover that science is truly "FUN-tastic"!

For robot enthusiasts, the National Junior Robotics Competition (NJRC) from 6 - 11 September promises to be a fun-filled event where participants pit their robot-building skills against each other.

This year, a record 740 teams of upper primary and lower secondary students will battle to reign supreme at the Bermuda Triangle robotic circuit. NJRC has become a highly-anticipated and wildly popular event showcasing the best of Singapore's robotics talents.

Watch Science Spark on Channel 5 and 8 throughout September. This series of science quizzes focus on "Body and Mind". Every week, a new quiz will be screened to intrigue your mind as well as to help you understand a little more about how your body works.

Catch Science Spark nightly (between 5pm and 11pm), SMS your answer to 72888, and stand to win a state-of-the-art Pocket PC. The answer to each quiz can also be found at [www.sciencemonth.org.sg](http://www.sciencemonth.org.sg) at the end of each week.

## Science Spark Week one: 1 - 7 September

Do you always hear what you think you have heard? This week Science Spark looks at how you listen to what people say. Catch the quiz on TV and SMS us your answer. If you miss Science Spark on TV, you can log on to [www.sciencemonth.org.sg](http://www.sciencemonth.org.sg)

## Be excited, be informed, be inspired science.03 : 1 - 30 September 2003

Competition

Workshop

Science Show

Open House

Edutainment

Seminar/Talk

Exhibition

### Log On & Win!

Log on to [www.sciencemonth.org.sg](http://www.sciencemonth.org.sg) to find out more about other science.03 activities. Participate in the interactive games and quizzes online and you may win fantastic prizes from robots, science kits to MP3 players and more!

## Kaleidoscope of Science

For working professionals and parents, science.03 has programmes in store for you too! Would you like to know about the latest discoveries our local scientists have made in the field of science and technology? Or be treated to selected sci-fi movies with family and friends? Impress your friends with new-found scientific knowledge by taking part in the Online Quiz.

### Sci-fi Movie Binge!

That's right! Feast your senses with a great selection of sci-fi movies. Be it the evergreen Iron Giant or the Terminator series and X-Men 2. From 18 - 21 September, look forward to a cinematic experience like no other under the stars at Fort Canning Green. Tickets available at TicketCharge at \$10 per session. On the weekend afternoons, the park will be open for "out-of-this world" activities! Design and launch a rocket or have your face painted as your favourite sci-fi character!

### Image Magic!

Be enthralled by the amazing images of science at work, in nature and at play! Take part in the Images of Science - Digital Imaging Competition and show how you perceive science through your own lenses. Registration forms available online.

### Science Shows

Come down to X-periment! from 5 - 7 September and be entertained by our fascinating science shows. Kids can watch our performers ham science up with their fun and educational acts from making slime to erupting volcanoes.
